I Can do all My Own Work

"I feel it my duty to tell you what your medicines did for me," writes Mrs. Blanche Marshall, of Whiting, Jackson Co., Kansas, Box 139. "I was severely afflicted with kidney trouble and female weakness. In less than three months the trouble became so bad I could hardly walk around the house. I suffered almost everything. Seeing your advertisement in our paper concluded to write Dr. Pierce. After receiving your kind advice I immediately began taking your medicine. After taking two bottles of 'Favorite Prescription' alternately with two of 'Golden Medical Discovery,' and using one box of 'Lotion Tablets' I am entirely cured. I can do all my own work without any trouble. I take great pleasure in recommending Doctor Pierce's medicines to all suffering women."

REMARKABLE ELECTRIC DISPLAY.

The most remarkable display of lighting ever seen in the Rocky Mountain country prevailed over Butte, Montana, for an hour between 4 and 5 o'clock yesterday morning. The heavens were one continuous sheet of flame, without a moment of intermission, and thousands of people were aroused from their slumbers by the brightness of the strange phenomenon. Nearly everything became more or less charged with electricity, and many persons were injured by coming in contact with articles connected with electric light and telephone wires, even several hours after the electric display in the heavens had ceased. Alfred E. Rhodes, of Aurora, Ill., an employee of the Cudahy Packing Company, in Butte, was killed by an electric shock that came from a stick of meat in the refrigerator car. When he first entered the car he received a violent shock by touching a piece of timber. He was dragged out by a fellow-employee and after great difficulty his life was saved. A short time later he went back in the car to resume work and touched a piece of meat and was instantly killed. Coroner Johnson, while investigating the accident, touched another piece of meat and was nearly killed. He remained unconscious for an hour. A dozen or more people in different parts of the city received severe shocks.

Judge Clarence J. Campbell, of the County Court of Amherst, is on trial in the court over which he presides for felonious assault in cowardly Rev. Charles H. Crawford, secretary of the Anti-Saloon League of Virginia. Judge Campbell scored a point in forcing a trial at once. Judge Wood, of Evansville, sitting in the case, overruled all the motions of the prosecution looking to delay and the hearing proceeded. No testimony was taken yesterday. Much difficulty was experienced in securing a jury. Several of the jurors were secured from among the spectators.

RANKING COMBINE.—There has just been formed in Boston a big banking corporation with a capital of \$6,000,000, which is to be known as the United States Bankers' Corporation. It is the purpose of the organizers to form a chain of trust companies in all the principal cities holding the major portion of wealth. The chain will start with forty companies, each with the same capital and surplus. Included in the list are several of the principal New England cities, Washington, Cleveland, Chicago, St. Louis, Minneapolis, St. Paul, Kansas City and New Orleans. The president is ex-Governor John Q. A. Brackett, of Massachusetts. Charles N. Brady, Washington, Pa., president of the Hazel Glass Company; D. Russell Brown, ex-Governor of Rhode Island, and Charles R. Barlow, of New York, are among the directors.

NEW RACE DISCOVERED.
Lieut. Lorenzo A. Declairmont, U. S. A., formerly of the Philippine scouts, has arrived at San Francisco with a startling story of the existence in the interior of Mindoro Island of a perfectly white race, semi-civilized, partly Christianized, but cruelly hostile to the white man. The few that have been permitted to penetrate the fastness of these exclusive Caucasians, says Lieutenant Declairmont, tell tales of a country rich in vegetable and mineral wealth, a people skilled in domestic crafts, gentle and hospitable, but well equipped with their little world to resent intrusion. Although the existence, he says, was first discovered 25 years ago, little has been heard of this isolated people outside of a small official circle in Madrid. Lieutenant Declairmont was stationed at Pabillon, Tagbayan Province, in Mindoro, and the story was told to him, he says, by Manuel Castro, a native, and was corroborated by the local priest and by the president of the province. "In the meantime," said the lieutenant, "I have been assigned to the Philippine Islands, and I have an opportunity to go in with an expeditionary party, but the state of my health forbids. These people, I am told, have a city of 20,000 inhabitants."

DEMOCRATIC HARMONY.
During the last few weeks there has been considerable talk about "harmonizing" and "reorganizing" the democratic party. The peculiar thing about this "harmonizing" talk is the source from which it comes. The only ones who desire to "reorganize" the party are those who either gave the party a bare support in the two last presidential campaigns or those who bolted the party in 1896 and gave their support to the Palmer-Buckner ticket. Now if the leaders of the republican party should talk about "reorganizing" the democratic party, it would be taken as a joke. Wherein lies the difference between members of the republican party and members of the Palmer-Buckner or some other party talking about "harmonizing" and "reorganizing" the democratic party?
When the democratic party needs reorganizing it will not be done by those within the party and not by those without. But at present the party needs no reorganizing. Those who worked for and voted for the platform and candidates of 1896 and 1900, have no complaint to make. They are very well satisfied and are ready to go into the campaign of 1904 with the same enthusiasm that animated and encouraged them in the two last presidential campaigns. And with such a declaration of principles as those of the last campaign and with the same gallant leader there can be but little doubt as to what the result will be.

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days the time the child had fully recovered and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by Richard Gibson, Druggist.

His Sight Threatened.

"While picking last month my 11-year-old boy was poisoned by some weed or plant," says W. H. Dibble, of Sioux City, Ia. "He rubbed the poison off his hands into his eyes and for a while we were afraid he would lose his sight. Finally a neighbor recommended DeWitt's Haze Salve. The first application helped him and in a few days he was as well as ever." For skin diseases, cuts, burns, scalds, wounds, insect bites, DeWitt's Haze Salve is sure cure. Relieves piles at once. Beware of Counterfeits. For sale by E. K. Leubsdorfer & Sons.

"THE DIXIE"

MOSQUITO CANOPY

Frames and Nets.

Manufactured by the Southern Canopy Com-
pany, Knoxville, Tenn.

SOLD BY
Isaac Eichberg & Son.

The "Dixie" Canopy is no experiment, but has stood the test for years, improvements having been made each year, until we can say without any fear of contradiction that it is the most perfect mosquito canopy ever put before the American people. It is easily attached to any style of Wood, Brass, Iron or Folding Bed without defacing the same. We wish to call especial attention to the size of the COILED SPRING of the Dixie Canopy Frame. It is made large enough that constant use will not weaken it and cause the frame and net to hang over the bed, instead of going back against the headboard, entirely out of the way.

It Requires No Step Ladder to
Put it Up and is Always in
Working Order.

STORE NEWS.

Good Advertising

does not try to make the people believe
that the store is a charitable institution,
and that everything is sold at and be-
low cost. Such talk is trifling with the
intelligence of the public. Observation
and experience has taught us that

coartious treatment and your money
back for anything you buy, wins the
confidence of all who visit such a store.
It is true that there are times when
merchants do cut prices at end of sea-
son; this is legitimate business, but
when you see \$1.00 goods advertised at
48c, 25c, goods at 9c, you know there is
something wrong, and you have doubts.
We are now facing the necessity of
price cutting. Naturally we prefer to
sell the goods at profit, but there
isn't time. Want you be one of the
early callers? A look-around visit will
be worth your while. No matter what
you buy here
